

FabBatt

MONTRÉAL

WHAT IS ADM MONTREAL?

ADM Montreal, Quebec's premier end-to-end manufacturing expo, is introducing a new brand, FabBatt Expo, with an accompanying conference, showcasing the latest in battery manufacturing and battery material manufacturing. As an addition to the five existing brands - PACKEX, Automation Technology Expo (ATX), Design & Manufacturing (D&M), Expoplast, and Powder & Bulk Solids - FabBatt Expo will serve as a meeting place for Quebec's growing battery industry. ADM Montreal is Quebec's only event featuring the entire manufacturing supply chain, on one show floor.

Canada is the only country in the western hemisphere with an end-to-end supply chain for electric vehicles (EV).

Québec's goal is to become the 1st location in North America to provide traceability for green batteries.

- #2 in the world for global lithium-ion battery supply chain
- #4 globally for raw material capacities
- Top 10 producer of nickel, cobalt, graphite and aluminum
- 177,576 jobs in the EV supply chain industry, with 20,422 in Quebec and 134,097 in Ontario

- Quebec is abundant in natural resources essential for battery production: Lithium, graphite, titanium, phosphate, cobalt. All key mineral resources for battery manufacturing can be mined locally.
- 3rd largest producer of lithium.

ADM MONTREAL STATS

Quick Facts

November 13-14, 2024
Palais des congrès de Montréal

3,500+ attendees	50+ speakers
220+ exhibitors	30+ hours of education
1 Battery Conference	3 Stages

Top Attendee Industries

Food & Beverage	Energy
Automotive	Mining
Transportation	Medical Devices
Building/Construction	Aerospace

Past Battery Supply Chain Attendees

Bell Helicopter
Bombardier
Excelitas Canada
Honda
Hitachi Energy
Hydro-Quebec
Innergex

Novabus
Panasonic
Pratt & Whitney
Schneider Electric
Southern Copper Corp
Taiga Motors
TotalEnergies
